

HOW TO PLAY HYPERBOWLING

HyperBowling combines the fun of bowling with video game-like technology to create an action packed and fun new way to bowl. Everyone can get in on the game!

HERE'S HOW IT WORKS!

Hit the colored target on the lane

Each colorful target is a multiplier

Each pin knocked down = 100

Multiplier x (pins hit x 100) = score

"3x" x (9 pins x 100) = 2700

Beware of fouls (throw too hard or too fast and it's a zero)

Hit anything red and your score is zero

**FOUR FUN AND EXCITING GAMES
TO CHOOSE FROM. PLAY ONCE AND
YOU'RE HOOKED!**

AUDIENCE: Anyone looking for fun.

HyperBowl can be enjoyed by anyone and is a good place to start to see just how much fun and how challenging it can be. It looks easy from the sidelines, but watch out... you'll be hooked! Take aim at the colorful targets on the bumpers to multiply your pinfall while leveling up to more challenging levels. Go ahead and multiply the fun!

AUDIENCE: Those looking for a challenge or are a little more competitive.

Just because you've mastered traditional bowling, doesn't mean you'll be a pro at HyperBowl Pro. Pro delivers the same basic game mechanics and scoring as HyperBowl, but with seriously escalating challenges and shots. Pro was built for the competitive player and features complex targets, changing sizes, and bigger scoring risks.

AUDIENCE: Groups, parties, and other events looking for fun team competition.

HyperSquad is a strategic team game where you claim territory and score is based on your team's ability to hit the target. A hit in a dark area lights that section and claims your territory. Beware of hitting the enemy territory or getting a foul or you will be guilty of siding with the enemy! Highest scoring team wins.

AUDIENCE: Great for groups, all kids, and fun competition.

A wild and crazy game with FAST changing targets of various colors. Hit the right colors to multiply the pins, but hit the red and Buster will appear leaving you with a zero. Get lucky enough to hit the 10x multiplier and a strike to earn the Golden Buster. Bowlers can take their pictures and become part of the competition.
